

FIT MATTERS!

No matter what code of football you play, you can improve your performance and comfort by wearing boots that fit correctly.

No two players are the same, which means we put pressure on different parts of our feet when we play.

That's where The Athlete's Foot "Fit Technicians" come in. We are expertly trained in the art of fitting shoes. We can look at your feet and recommend a boot that is best suited to your foot type. No matter what surface you play on, or what type of football you participate in, The Athlete's Foot can help you choose the ideal boot for you.

FOOTBALL TIP

It is important to try your boots on with the socks, shin guards and ankle guards that you may wear in your game, as they may affect the overall fit of your boots.

Fitprint®

Fitprint® is revolutionary computer technology that scans your feet through different phases of your gait.

Fitprint® identifies pressure points in your feet and assists the highly trained staff at The Athlete's Foot to recommend the most comfortable, best-fitting shoes you will ever wear.

Fitprint® is a complimentary service and is exclusive to The Athlete's Foot.

2012 FOOTBALL BOOTS

PREDATOR ABSOLION TRX FG

Style pictured, Adults
Kids \$99⁹⁵ Adults \$159⁹⁵

The adidas Absolion football boots are specifically designed to dominate on firm ground pitches. Fitted with a Traxion FG outsole and featuring a full grain leather upper for ultimate comfort and soft feel. Compressed Predator Rubber for ultimate swerve and ball control.

LIGHTWEIGHT POWER

Lighter and faster, thanks to a new sole design and construction. A Solyte midsole and cushioned sockliner deliver great comfort. Carrying the HG10mm philosophy that is so important to the growing foot, the new Tigreor GS is a great choice for aspiring champions of tomorrow.
